

BASIS™ Production Control System

Stagecraft Industries' Entry Level Integrated Controller

General Information

The BASIS control series can integrate a variety of motorized equipment into a single user interface. This series provides simple operation for fixed speed motorized products.

What can BASIS control?

- ◆ Line-shaft hoists
- ◆ Self climbing hoists
- ◆ Counterweight assist motors
- ◆ Motorized curtains
- ◆ Variable acoustic banners
- ◆ Projection screens/roll drops

Applications

- ◆ Small to mid-sized Theaters
- ◆ Concert Halls
- ◆ Production Studios

Features for all configurations

- ◆ Industrial grade components and processors that can hold up to the rigors of the entertainment industry
- ◆ Off the shelf components means parts will be available for the entire life of the system
- ◆ Simple control layout for ease of use
- ◆ Complies with NFPA 79

Push Button Interface Standard Features

- ◆ Individual controls for each motor
- ◆ Custom engraved face plate
- ◆ System power indicator
- ◆ On-off key switch
- ◆ Optional pendant controller
